About This Game

Have you ever been so lonely that no one but yourself could save you from complete self-destruction? This game is just about that! Cyber Gun is a hardcore first-person shooter with platformer elements.

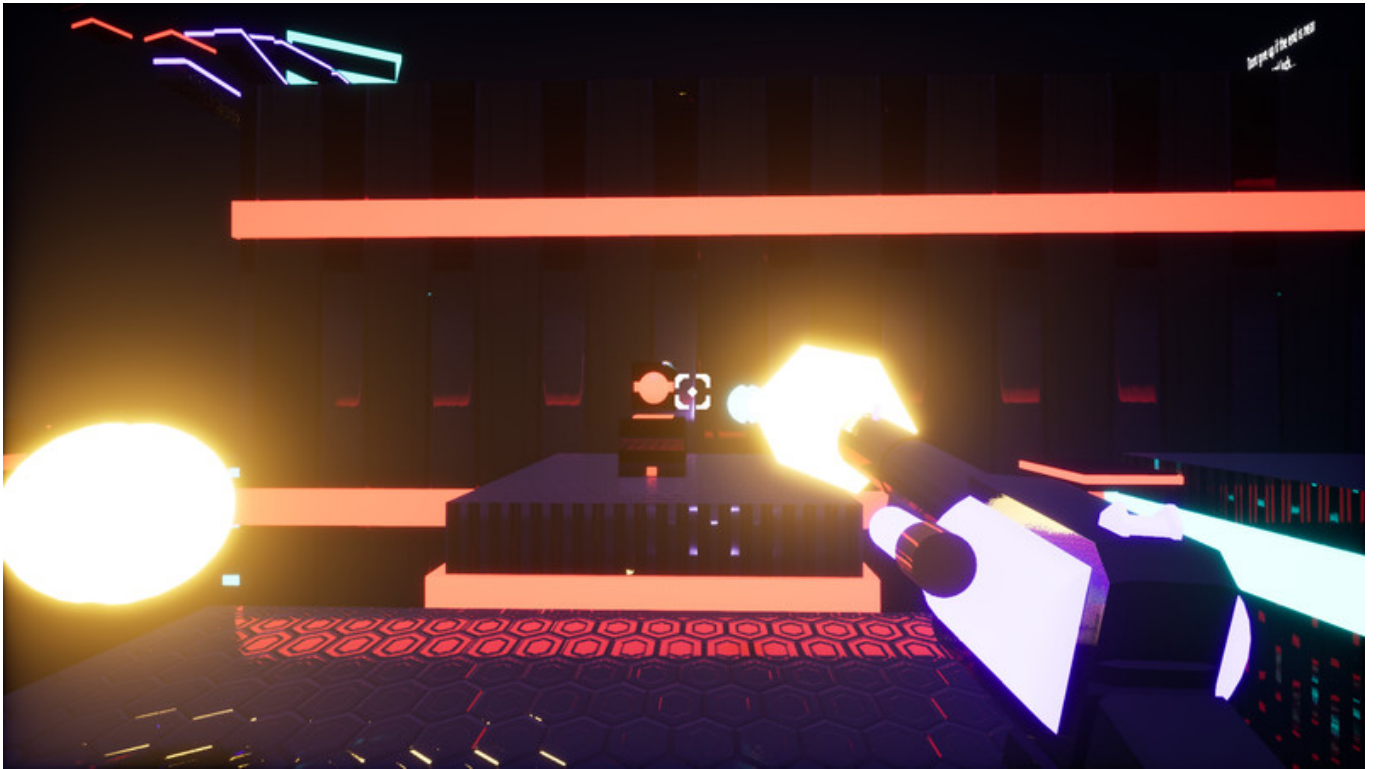

Features:

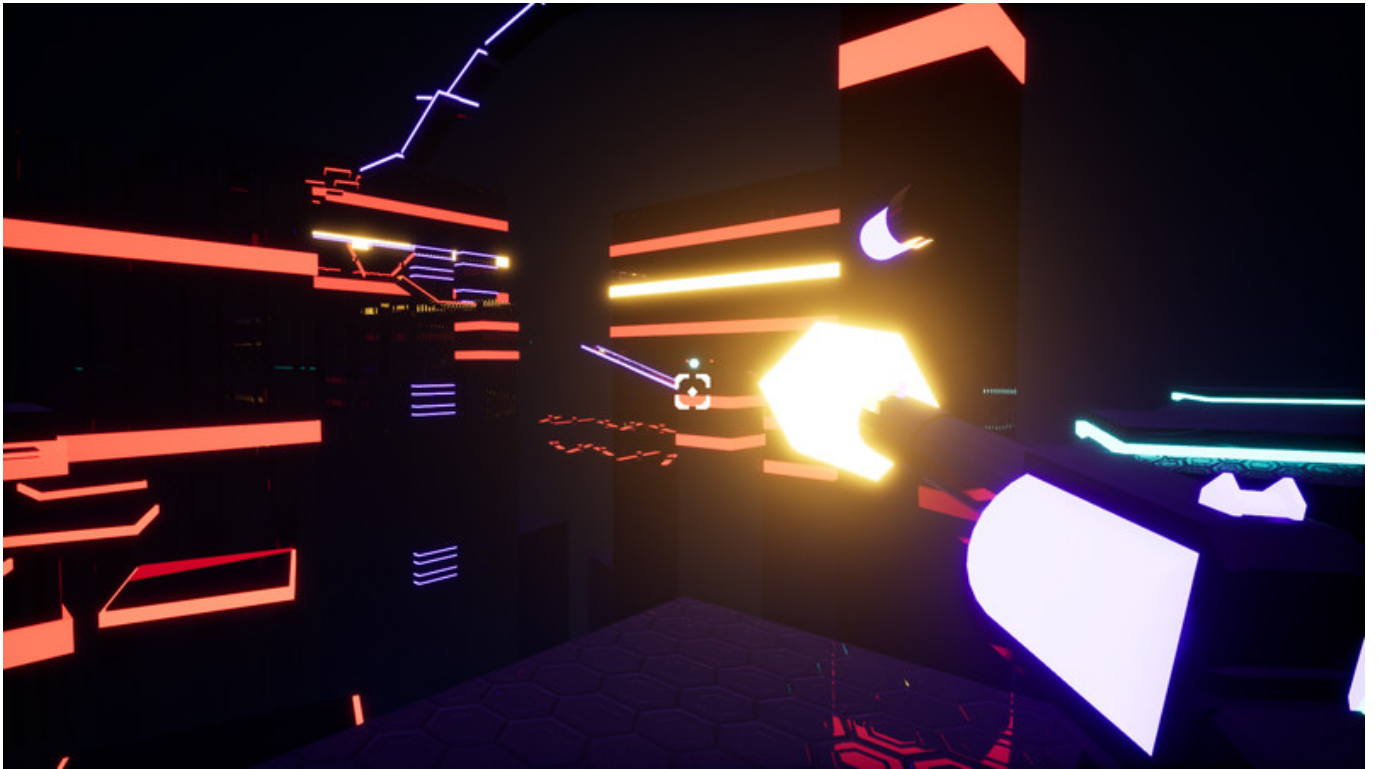

- Challenging levels that will make you pass them again and again
 - Neon cyberpunk atmosphere
- Lots of interesting mechanics that make the gameplay more interesting: time dilation, jerks and much more
 - Beautiful graphics

Wow that's fun. Great graphics and overall art style. Reminds me of the turret puzzles in portal with the great twist of super hot. The game could use some music though but for the first day of release it is great.
